Parent:

As a parent/guardian of this student, I have read the KCS technology plan. I understand that access to networks is solely for educational purposes. KCS discourages students from accessing non-educational material; however, I recognize that it is impossible for KCS to restrict access to all material. I will not hold KCS or its employees responsible for material acquired on the network. I hereby give permission for my child to access the Internet pursuant to KCS technology plan regulations. I understand that if my child fails to abide by KCS rules, he/she may be subject to disciplinary action, revocation of user privileges, and replacement cost for damages.
